Re: CERTA Torch Training

To Whom it may concern,

This letter is to confirm the knowledge and expertise of Mr. Jim Brauner. I have known Jim for 20 years and his knowledge of roofing and how it relates to torch applications is second to none.

As a certified torch instructor, I have knowledge of what it takes to establish and instruct a class. Jim's preparation of his classes make them informative and interesting to the roofers, which is a hard thing to do, as most roofers feel they know all there is to install torch applied roofing and flashing.

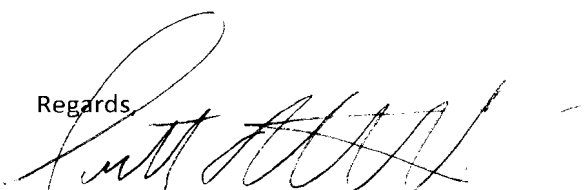

I have sat in on some of Jim's classes and he kept my attention the entire time. His classes are not read out of the booklet, but spoken from knowledge of the class content and years of instruction.

Jim is one of the oldest established instructors in the Industry or since the CERTA program was enacted. He has made the commitment for the long term, and to make torch roofing a safer work environment for the employee and to reduce employer liabilities.

I would recommend Jim as a CERTA instructor to any contractor who if not mandated by their insurance carrier, but wishes to make their company safer at any time.

If you would like to discuss further, I can be reached at (407) 489-0535

Regards,

Scott Mitchell
